

## Local & Regional Plant Suppliers

Certified as a **Tree City USA** community since 1992 and **Bee City USA** affiliate since 2015, the City of Hendersonville strives to create a beautiful and healthy place to live for people, wildlife, and pollinators.

The Hendersonville Tree Board's [Recommended Species List](#) includes a section devoted to plants (flowers, grasses, vines, shrubs, trees, etc.) to support wildlife and pollinators. Whether you are planting one hundred acres or one hanging basket, this section will offer valuable recommendations. With input from local experts, the included species were selected based on how well they grow in Henderson County; their ability to nectar, pollen, nuts, seeds, fruits, etc. to feed wildlife; and their usefulness for shelter, nesting sites, and/or reproduction (ex. host plants for butterflies).

The below list assists community members with procuring these recommended species and/or planting wildlife and pollinator-friendly gardens.

*Disclaimer: The City of Hendersonville does not recommend or endorse any of the following businesses. This list is provided to maintain Hendersonville's certification as a Bee City USA affiliate and is intended to be for informational purposes only. Details about products and services are provided by the businesses themselves. To be included in future editions of this list, please contact Sustainability Manager, Caitlyn Gendusa at [cgendusa@hvlnc.gov](mailto:cgendusa@hvlnc.gov).*

## Local Plant Suppliers: Garden Centers, Nurseries & Farms
