Applicant's Signature Date

Application is hereby Approved subject to the attached considerations:

Director, Public Works Date _____
Tree Board Member _____
Date

Considerations in Approving Permits for the Removal of Selective Vegetation Information for Applicant

1. It is the intent of the City to preserve as much tree canopy as possible on public Rights of Way (ROW) within the corporate limits. This permit process applies both to ROW on state maintained roads as well as the city street system. In reviewing these permits the site will be examined in light of this purpose. Preserving present and future deciduous tree canopy will be an absolute goal in approving these permits.
2. The removal of deciduous and non-deciduous trees, shrubs, and vegetation will be approved through the issuance of this permit after a site visit is made by City staff and a member of the City Tree Board.
3. Applicant may accompany the Staff and Board member on the site visit by calling and making arrangements.
4. The site visit and decision on the vegetation permit will be made as soon as practical, usually within 72 hours.
5. The NC Department of Transportation vegetation clearing permit will be issued within 30 days or less. The City of Hendersonville will issue a decision on its permit and notify NCDOT within that time period.
