

Hendersonville Police Department

To: Chief Blair Myhand
From: CTB Manager Amber Kleppe
Date: September 10, 2026
Ref: August LPRS Audit

During the month of August, there were 321 searches conducted by users in our agency. This month, each search required an offense type and case number to conduct all searches. There were 35 searches that did not properly contain case numbers. These searches were related to 7 different cases and were conducted by four different users:

- [REDACTED],
- [REDACTED],
- [REDACTED] and
- [REDACTED]

Each search was audited according to applicable department policy and found to be appropriate uses of the system. The searches conducted for warrants were for the following charges for various individuals where a case number had not been created:

- Simple Assault
- Larceny
- Misdemeanor Crime of Domestic Violence
- Assault with a Deadly Weapon
- Assault Inflicting Serious Injury
- Interfere with Emergency Communications

The searches without a case number were for three separate cases, 2026-28777, 2026-27332, and 2026-30685.

- 1) **2026-28777:** [REDACTED] ran the search correctly multiple times prior to the incorrect search but when using different search criteria entered the plate number in the case number field.
- 2) **2026-27332:** [REDACTED] incorrectly used "/" instead of "2" in her search.
- 3) **2026-30685:** [REDACTED] first entered "no case+G16" in the case field but corrected the error when she modified her search criteria to rerun the search.

All instances mentioned were addressed with each officer and their supervisor via e-mail to ensure data is entered correctly and completely. A record of that counseling has been added to our online performance review system.

The "audit assist" in the LPR system flagged three searches conducted during the month. They are:

- 1) An officer running a search on a plate that was previously run by the same user from 30 days prior. This was related to the same plate that was randomly audited above. The search was for a legitimate law enforcement purpose related to 26CR281736-440 and the flag was noted and archived.
- 2) A single user ran a search that was also audited during the random search above because the officer did not include the OCA. The review of the search found the search was related to OCA 2026-29972 for a larceny from a grocery store. The search was for a legitimate law enforcement purpose, and the flag was noted and archived.
- 3) An officer conducted a search for a plate they previously ran 30 days prior. This search was related this month to OCA 2026-30236 which was a road rage incident. The system flagged the search because the same plate was searched in OCA 2026-24630 where the driver allegedly pulled a gun on the caller. Both searches were for a legitimate law enforcement purpose.

At the completion of the monthly audit, I found no evidence of misuse and have addressed the areas of improvement with the users on proper use of case numbers.
