RE: FY2026 SS4A Grant Application – ***Safe Streets for Hendersonville: 7th Avenue Safety Implementation***

Dear Secretary Duffy:

The Henderson County Department of Public Health strongly supports the SS4A grant application “Safe Streets for Hendersonville: 7th Avenue Safety Implementation,” which is the result of a collaboration between the City of Hendersonville, the French Broad River MPO, and NCDOT.

The 7th Avenue Safety Implementation project will improve safety for all roadway users along a historic downtown corridor; provide a comfortable and welcoming public realm for families, individuals, and visitors; expand quality of life for residents; improve resilience to flooding events; and create improved connections to multiple major regional trails.

By supporting this effort, USDOT can showcase a project that aligns closely with the Trump Administration's objectives, including:

- Creating a safer local transportation system,
- Increasing quality of life for local families and individuals, and visitors,
- Providing improved accessible, affordable, and connected transportation options while maintaining vehicular roadway capacity,

In summary, the Safe Streets for Hendersonville: 7th Avenue Safety Implementation project will act as an engine—improving safety, integrating transportation and recreation options, and enhancing economic development for small town Hendersonville.

Thank you for considering our application for SS4A Program funding.

Sincerely,

Stacy Nash
Community Health Director
Henderson County Department of Public Health
