

GIRL SCOUTS
Apple
Quest

Hendersonville, NC

Come test your inner sleuth and help Little Bear
and his bear family find their apples!

About the

Apple Quest:

Apple Quest is a permanent scavenger hunt created by Girl Scout Troop 1886, Henderson County, NC. It was a joint Silver Award project chosen by the girls and inspired by Greenville, SC's 'Mice on Main'

Apple Quest is a FREE activity for families and a great way to explore the wonders of downtown Hendersonville. It can be enjoyed year-round in the City of Four Seasons by anyone up for a bit of a walk, a little sleuthing and a lot of fun!

Apple Quest

CLUES

- 1** Look for the building with a green roof where many visitors you may meet. Then, to start your quest, first take a rest, and an apple you may see.
- 2** The next apple is sitting by a store where they sell sports equipment, souvenir clothing and maybe even things to go off to war.
- 3** Look for a building where flags proudly fly, and monuments remember those who fought and died. Although no legal cases are now settled here, there's lots of history, that's pretty clear.
- 4** This apple is located at the town's first hotel. But today you can top your find off with a frozen delight that will make you leap.
- 5** To find the next apple, we encourage you to find a good beat, then to skip and to sing across the street. Look for the business where the ghosts of Leo Fender, Orville Gibson may roam.
- 6** Your kids can play here all day and never tire while mom and dad sit close by, have some coffee, unwind and smile, all while they can look up at the mosaic tile.
- 7** To find this apple, look for the red awning from where you can step back into time and enjoy a great shake.
- 8** A bank was once the home to this next apple. And, around 1926, they made it so you could see from above ground or below. Look for the glass tiles that made this possible.
- 9** This next apple is very special to us. It may look dim in daylight, but to us it's truly a shining gem.
- 10** This next location is sure to make you smile, it leads to a creamy treat and we are not "fudging" around.
- 11** In "General," this store has been pleasing customers since 1883.
- 12** This last apple may get wet but not just from rain. To find it takes work and you may have to look at all directions.

Congratulations on your Apple Quest!
